Manuscripts: Manuscripts may be submitted either in German or in English. Two copies of each manuscript (one with the originals of the figures) should be sent to the editor-in-chief or to one of the editors listed above. The manuscripts accepted for publication will be published in the order they arrived at the editor-in-chief according to the technical possibilities. Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication anywhere else; that its publication has been approved by all co-authors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any other language without the consent of the copyright holders.

Offprints: A total of fifty offprints of each paper will be supplied to the authors free of charges.

Page charges: Papers should not exceed 12 printed pages (approx. 25 manuscript pages including figures and tables). We regret that for any additional page an excess charge of DM 50.00 has to be applied.

All fees should be paid to the Copyright Clearance Center Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0020-1154, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution,

promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.
